

5 x 60gram Leaded Swivels. For Leadlines!

60gram Stainless Leaded Swivels
Pack of 5

These swivels are excellent for making Leadlines for Kingfish and for adding weight to get Livebaits down deeper.

To make a leadline simply space the sinkers a couple of metres apart. Normally 5 of them will be more than enough to make one heavy leadline. The bait can be Squid, Live Yakks or any other favourites for your local Kingies.

These swivels also work as weight to get Livebaits down for Marlin.
