

Pakula Hothead Uzi Black Betty. Excellent Trolling Lure

The Uzi is a tiny version of the very successful Pakula Zipper. Though we thought this lure would be great for small tuna, mackerel, bonito, kingfish etc, we did not expect it to do as well as it has in catching marlin up to 300kg!!!. Within a month of it's release the UZI had won the Cairns Light Tackle Tournament, The Ribbons Light Tackle and has been used in winning The Frazer Coast and the Gold Coast Bluewater Tournaments.

The Uzi has been in such high demand since its introduction we have had special skirts made just for this lure. In fact the colour range is even more extensive than those available for our larger lures.

This lure has certainly excelled to such an extent many anglers actually stop using it at times because they have to stop every 100 yards to pull in the fish!!

This is a genuine Pakula product designed by expert lure craftsman Peter Pakula.

Style: Uzi

Length: 6.5"
