

Outrigger Base / Centre Rigger Base. Bent Butt

A new addition to our range of Outrigger and Centre Rigger Bases is the Bent Butt Rigger Base.

Made from 316 Stainless Steel this base can be used as a centre rigger and mounted off your rocket launchers or is also perfect for use as an outrigger base mounted directly from your rod holder.

Inside diameter is approx 30mm to suit poles 28-29mm in base diameter.

This base is super heavy duty.
