

Quick Change - wire trolling / bait leaders

Quick Change Wire Rigs

Quick Change - wire and trolling rigs are made from 70lb single strand wire. Perfect for mackerel, barracouta and other toothy species.

These rigs can be used with bait, or lures.. or both. Simply spin the spring around until the rig unlocks and the clip will spring open, allowing you to change lures or hooks within seconds. Then spin back and it locks into place.

No more worrying about twisting wire, untidy loops or sharp tag ends. Just tie on one of these rigs and it's all you need.

Quantity: 20pcs

Length: approx 120mm

Price: \$9.95
