

14" Katana Marlin Lure. Paua Head. BIG Marlin Lure

The 14inch Katana has a unique design that gives it an action that Marlin can't resist.

It is a normal plunger design but with a slightly narrower head that gives the lures more wobbling action than a normal plunger lure.

At 14 inches in length and 250gms this lure is not for the faint hearted. The beasts that eat this trolling lure will require 24kg tackle as a minimum, preferably 37kg.

It's a gun choice for big Blue Marlin but will also catch monster Yellowfin and Bluefin tuna and big striped & black Marlin.

This Sumo Katana is also perfect to use as a teaser for smaller marlin.
