

13" Lumo Katana Marlin Lure. Lights up like no other

The Katana has a unique design that gives it an action that Marlin can't resist.

It is a normal plunger design but with a slightly narrower head that gives the lures more wobbling action than a normal plunger lure.

This lure has a water activated light mounted in the head, the head flashes different colours and charges the lumo up constantly while it's in the water. Excellent for dark days, late arvos or even trolling at night for swords.

Length 13 inches

Lure is unrigged.
